FOR IMMEDIATE RELEASE:

**ORTHOLOGY — INNOVATIVE SOLUTION FOR RAPID RECOVERY
FROM NEW INJURIES, CHRONIC BACK AND BODY PAIN,
AND ORTHOPEDIC SURGERIES —
ACQUIRES REYNOLDS REHABILITATION ENTERPRISES**

Minneapolis, Minn., February 5, 2015 -- Orthology, a world-class solution for rapid recovery from new injuries, chronic back and body pain, and orthopedic surgeries, as well as ongoing 'TuneUps', has acquired Reynolds Rehabilitation Enterprises, with locations in Minneapolis and Eagan, Minnesota.

Based on a patent-pending, research-based methodology developed by Orthology Chief Clinical Officer Dr. Josh Sandell, Orthology rapidly resolves injuries, restores function, and improves athletic performance. Like Dr. Sandell, Reynolds Rehabilitation founder Dr. Jonathan Reynolds established his practice with the purpose of helping patients with a variety of musculoskeletal disorders using breakthrough therapy methods. This mutual dedication to treating patients using the latest techniques in orthopedic care is the foundation of this partnership.

"Reynolds Rehabilitation has an impeccable reputation within the community. This is one of the many reasons that a partnership with Dr. Reynolds and his team was a natural fit for Orthology," said Dr. Sandell.

Delivered by highly trained Collaborative Care teams of chiropractors, physical therapists, and soft tissue specialists—and proven on some of the world's greatest professional athletes—Orthology Care focuses on curing the root causes of pain in order to get patients back to living life to the fullest, faster.

"We are thrilled to join forces with Dr. Sandell and the Orthology team. We share Orthology's deep commitment to identifying and treating the root causes of our patients' pain, breaking the cycles that perpetuate or generate repeat injury, and restoring them to full function as quickly as possible," said Dr. Reynolds. "With Orthology's resources, this partnership will enable us to help patients all over Minneapolis."

Reynolds' existing locations in Eagan and Downtown Minneapolis will begin transitioning into Orthology wellness centers. Patients may continue to visit those locations at 43 Main Street S.E., Suite 223, in Minneapolis and at 2119 Cliff Road in Eagan as they undergo their transformation.

Patients may also book appointments at four Orthology Minneapolis area locations in Eden Prairie at 11995 Singletree Lane, Suite 120; West End at 5775 Wayzata Blvd, Suite 900; Maple Grove at 9325 Upland Lane North, Suite 230; and Woodbury at 707 Bielenberg Drive, Suite 108.

Through a non-invasive methodology, Orthology delivers the best possible experience and results for patients. To book an appointment, visit Orthology.com for online scheduling and location phone numbers. Orthology accepts all major insurance plans.

Get Better. Faster.
